

Jerome de Dios

Senior Application Support Engineer / SRE

Dresden Area, Germany [+491795213992](tel:+491795213992)

jeromededios.de@proton.me [Personal Website](#)

Summary

Site Reliability Engineer with 8+ years supporting high-traffic, mission-critical platforms in the sports betting and enterprise software industries. Proven in rapid incident resolution, proactive monitoring, automation, and maintaining SLAs above 99.9%. Skilled in troubleshooting multi-tier Java applications, writing clear technical documentation, and collaborating across Dev and Ops teams to improve reliability and user satisfaction.

Cloud Project Spotlight: Designed and deployed a grocery-themed full-stack web app using **Terraform, AWS ECS, RDS**

Experience

webeet.io

September 2025 - November 2025

Software and Cloud Engineer

Remote - Amsterdam

<https://www.webeet.io/>

DevSecOps Team Lead – responsible for leading a team in developing AWS infrastructure for observability and provisioning services and servers.

Software Engineer – developed an AI-driven web application for analytics and automation.

Sportserve (formerly Bayview Technologies, Inc)

May 2015 – Nov 2023

Senior Application Support Engineer / SRE

Makati Philippines (Hybrid)

- Supported and operated a high-volume sportsbook platform with millions of daily users, ensuring 99.99% uptime through proactive incident response and on-call leadership.
- Halved incident detection time by implementing and maintaining dashboards and alerts using AppDynamics, Grafana, and Kibana.

Salmat Philippines

Mar 2012 – Jan 2015

JEE Developer & Analyst

Taguig City, Metro Manila, Philippines

- Worked on 20+ Java-based features on schedule using Agile/Scrum, while streamlining issue triage workflows to reduce critical ticket backlog by 100%.

Intevalue Services Inc. & AC Corporation

Dec 2008 – Mar 2012

Muntinlupa & Makati, Metro Manila, Philippines

Software Engineer

- Contributed to the development of online gaming and enterprise platforms, supporting 100,000+ daily and government end users, including the successful rollout of an e-tax system for the Bureau of Internal Revenue.
- Improved backend reliability for payment systems and resolved 98% of client support issues independently, addressing critical bugs in financial and printing operations.

Technical Skills

Programming Skills:

Python, CSS, Javascript, HTML, Groovy, Java Core, Java Web, Java EE, JSP, Servlets, HTML/CSS, XML, JAX-WS, jQuery, EXTJS, Ajax, Spring JDBC, PL/SQL, Selenium, SQL, PostgreSQL, MySQL, SQLite, Oracle, DB2

Frameworks & Tools:

Flask, FastAPI, SQLAlchemy, Pydantic, Loguru, Langchain, Langgraph, Struts, Hibernate, JUnit, OpenESB, Catchpoint, PRTG, Icinga, JMeter, AppDynamics, Fisheye, Bamboo, Confluence, Jira, Bitbucket, Grafana

Environments & IDEs:

MyEclipse, NetBeans, IntelliJ IDEA, Apache Tomcat, Glassfish, WebLogic

Soft Skills

Attention to Operational Excellence

Analytical Problem-Solving

Adaptable Collaboration

Projects

Nursing Assistant Application

[GitHub Repository](#)

Tech Stack: FastAPI, PostgreSQL, Pinecone, GPT-4o, Gemini, LLaMA 3, Grok, OAuth2, LangSmith, Logfire, Loguru

- Built an AI-powered backend to automate patient handoff and clinical Q&A, reducing manual documentation time by an industry average of 2x.
- Delivered a modular, production-ready system, achieving 100% Retrieval-Augmented Generation accuracy on WHO-sourced medical queries with multi-model support and observability.

Guess the Title (Trivia Challenge Game)

[GitHub Repository](#)

Tech Stack: Python, CustomTkinter, Wikipedia REST API, Requests, Urllib3

- Developed a GUI-based trivia game featuring dynamic question generation, a scoring system, and a persistent top-5 leaderboard, improving player retention during user testing.
- Achieved 100% successful deployment with full functionality including image-based questions, lifeline tracking, and replay options.

Education

Masterschool, Berlin Germany

Sep 2024 - Oct 2025

Software Engineering: Generative AI Training

Diploma

- Currently enrolled in an intensive online training program to develop strong software engineering skills and hands-on technical expertise.
- Gained practical experience in AI Engineering, with a focus on Python, APIs, JavaScript, Flask, and SQL

University of the Philippines Open University

Sept 2012 - Dec 2012

(Incomplete) Master of Science

Information Systems

Asian Development Foundation College, Philippines

Sep 2000 – Jun 2004

Bachelor of Science

Computer Science
